

Christmas Programme

Christmas theme: "The Twelve Senses and The Act of Consecration of Man"

We human beings are sensory beings. Everything we know of ourselves and the world is mediated through our senses. Spiritual Science has brought a new awareness to the fact that we have twelve senses which open us to experiencing ourselves and the world. During the past Christmas seasons we explored the twelve signs of the zodiac as expressed in eurythmy, and more recently the twelve foundation stones of the New Jerusalem as expressed in the Book of Revelation to John. This year through the sermons every morning, we will turn our attention to The Act of Consecration of Man and the expression of the twelve senses and their qualities in the ritual as mediators for objective spiritual content.

24th Monday, 23h00 Quiet preparation at the Christmas Tree
